b) One Laminated kit will be required (either solely or as an adjuvant with other essential drugs but kept separately) for each category for STI / RTI treatment as specified in the schedule of requirement.

The kit will be Grey (25%) colour and labelled as per details given.

Laminated material Glassine paper (40 gm) / Aluminium (9um) / Poly (150 gauge)

Type of kit Gusseted

Each Kit will contain 1 (one) Tablet of Azithromycin 1 gm and 1(one) Tablet of Cefixime 400 mg in a single blister pack, for use by one patient.

c) Millboard / Grey board

Board: at least 3 mm corrugated card board is to be used, surrounded on inside and outside by tightly affix millboard of at least 400 gsm.

Style of: Top and bottom tuck-in-flap type.

The millboard box should be labelled in grey colour. Each millboard box contains 20 colour coded kits.

d) 5-ply shipper: Each shipper will contain 20 millboard / grey board boxes and in Grey (25%), Colour labelled as per details given.

Description: RSC (Universal) type, 5-ply corrugated box made in narrow flute from (150)5 gsm, virgin quality 'A' grade Kraft paper.

RTI / STI Kit 2:

(a) Blister packed drug

PVC Film: Transparent, food grade, blister forming PVC film.

Aluminium Foil: 0.025 mm, VMCH coated Aluminium foil printed as per approved artwork.

(b) One Laminated kit will be required (either solely or as an adjuvant with other essential drugs but kept separately) for each category for STI / RTI treatment as specified in the schedule of requirement.

The kit will be Green colour and labelled as per details given.

Laminated material Glassine paper (40 gm) / Aluminium (9um) / Poly (150 gauge)

Type of kit Gusseted

Each Kit will contain 2 (two) Tablets of Secnidazole 1 gm and 1 (one) Tablet of Fluconazole 150 mg in a single strip pack for single usage for one patient.

(c) Millboard / Grey board

Board: at least 3 mm corrugated card board is to be used, surrounded on inside and outside by tightly affix millboard of at least 400 gsm.

Style of: Top and bottom tuck-in-flap type.

The millboard box should be labelled in green colour. Each millboard box contains 20 colour coded kits.

(d) 5-ply shipper: Each shipper will contain 20 boxes of millboard / grey board boxes and in labelled in Green Colour as per details given.

Description: RSC (Universal) type, 5-ply corrugated box made in narrow flute from (150)5 gsm, virgin quality 'A' grade Kraft paper.

RTI / STI Kit 3:

(a) Blister packed drug

PVC Film: Transparent, food grade, blister forming PVC film.

Aluminium Foil: 0.025 mm, VMCH coated Aluminium foil printed as per approved artwork.

(b) One Laminated kit will be required (either solely or as an adjuvant with other essential drugs) for each category for STI / RTI treatment as specified in the schedule of requirement.

The kit will be White colour.

Laminated material Glassine paper (40 gm) / Aluminium (9um) / Poly (150 gauge)

Type of kit Gusseted

Each Kit will contain 1 (one) Tablet Azithromycin 1 gm in blister pack and one vial of Injection Benzathine Penicillin 2.4 MU kept separately in the kit for single usage of one patient [along with 1 plastic ampoule of Sterile Water For Injection (SWFI) and one 10ml syringe with 22G X 1.25"needle].

(c) Millboard / Grey board

Board: at least 3 mm corrugated card board is to be used, surrounded on inside and outside by tightly affix millboard of at least 400 gsm.

Boxes will be labelled with White labels to the boxes.

Style of: Top and bottom tuck-in-flap type.

The millboard box should be labelled as given. Each millboard box contains 20 colour coded kits.

(d) 5-ply shipper: Each shipper will contain 20 millboard / grey board boxes and labelled with White labels.

Description: RSC (Universal) type, 5-ply corrugated box made in narrow flute from (150)5 gsm, virgin quality 'A' grade Kraft paper.

RTI / STI Kit 4:

(a) Blister packed drug

PVC Film: Transparent, food grade, blister forming PVC film.

Aluminium Foil: 0.025 mm, VMCH coated Aluminium foil printed as per approved artwork.

(b) One Laminated kit will be required (either solely or as an adjuvant with other essential drugs) for each category for STI / RTI treatment as specified in the schedule of requirement.

The kit will be in blue colour.

Laminated material Glassine paper (40 gm) / Aluminium (9um) / Poly (150 gauge)

Type of kit Gusseted

Each Kit will contain 1 (one) Tablet Azithromycin 1 gm in blister pack and 28 (twenty eight) Capsules / Tablets Doxycycline 100 mg in blister pack [Each strip contains 2 rows of 14 tab /cap.], kept separately in the kit for usage by one patient.

(c) Millboard / Grey board

Board: at least 3 mm corrugated card board is to be used, surrounded on inside and outside by tightly affix millboard of at least 400 gsm.

Boxes will be labelled with blue labels.

Style of: Top and bottom tuck-in-flap type.

Each millboard box contains 20 kits and labelled in blue colour.

(d) 5-ply shipper: Each shipper will contain 20 millboard / grey board boxes and with blue colour with labels.

Description: RSC (Universal) type, 5-ply corrugated box made in narrow flute from (150)5 gsm, virgin quality 'A' grade Kraft paper.

RTI / STI Kit 5:

(a) Blister packed drug

PVC Film: Transparent, food grade, blister forming PVC film.

Aluminium Foil: 0.025 mm, VMCH coated Aluminium foil printed as per approved artwork.

(b) One Laminated kit will be required (either solely or as an adjuvant with other essential drugs) for each category for STI / RTI treatment as specified in the schedule of requirement.

The kit will be in Red colour and labelled.

Laminated material Glassine paper (40 gm) / Aluminium (9um) / Poly (150 gauge)

Type of kit Gusseted

Each Kit will contain 21 (Twenty one) Tablets Acyclovir 400 mg for usage by one patient [a strip of 3 rows of 7 tablets].

(c) Millboard / Grey board

Board: at least 3 mm corrugated card board is to be used, surrounded on inside and outside by tightly affix millboard of at least 400 gsm.

Boxes will be labelled with blue labels.

Style of: Top and bottom tuck-in-flap type.

Each Red labelled millboard box contains 20 kits and labelled.

(d) 5-ply shipper: Each shipper will contain 20 millboard / grey board boxes in and labelled in Red colour.

Description: RSC (Universal) type, 5-ply corrugated box made in narrow flute from (150)5 gsm, virgin quality 'A' grade Kraft paper.

RTI / STI Kit 6:

(a) Blister packed drug

PVC Film: Transparent, food grade, blister forming PVC film.

Aluminium Foil: 0.025 mm, VMCH coated Aluminium foil printed as per approved artwork.

- (b) One Laminated kit will be required (either solely or as an adjuvant with other essential drugs) for each category for STI / RTI treatment as specified in the schedule of requirement.**

The kit will be in Yellow colour and labelled.

Laminated material Glassine paper (40 gm) / Aluminium (9um) / Poly (150 gauge)

Type of kit Gusseted.

Each Kit will contain 1 (one) Tablet Cefixime 400mg, 28 (twenty eight) capsules / tablets of Doxycycline 100 mg [Each strip contains 2 rows of 14 tab /cap.] and 28 (twenty eight) tablets Metronidazole 400 mg [Each strip contains 2 rows of 14 tab.], all in their own blister pack, and kept separately for usage by one patient.

- (c) Millboard / Grey board**

Board: at least 3 mm corrugated card board is to be used, surrounded on inside and outside by tightly affix millboard of at least 400 gsm.

Style of: Top and bottom tuck-in-flap type.

Each box contains 20 kits and labelled in yellow colour.

- (d) 5-ply shipper:** Each shipper will contain 20 millboard / grey board boxes in and labelled in yellow colour.

Description: RSC (Universal) type, 5-ply corrugated box made in narrow flute from (150)5 gsm, virgin quality 'A' grade Kraft paper.

RTI / STI Kit 7:

- (a) Blister packed drug**

PVC Film: Transparent, food grade, blister forming PVC film.

Aluminium Foil: 0.025 mm, VMCH coated Aluminium foil printed as per approved artwork.

(b) One Laminated kit will be required (either solely or as an adjuvant with other essential drugs) for each category for STI / RTI treatment as specified in the schedule of requirement.

The kit will be in Black colour and labelled.

Laminated material Glassine paper (40 gm) / Aluminium (9um) / Poly (150 gauge)

Type of kit Gusseted.

Each Kit will contain 1 (one) Tablet Azythromycin 1 gm in a strip and 42 (forty two) capsules / tablets of Doxycycline 100 mg for usage by one patient [3 strips of 14 capsules. Each strip contains 2 rows of 7 capsules].

(c) Millboard / Grey board in Black colour

Board: at least 3 mm corrugated card board is to be used, surrounded on inside and outside by tightly affix millboard of at least 400 gsm.

Style of: Top and bottom tuck-in-flap type.

Each black coloured millboard box contains 20 kits and labelled.

(d) 5-ply shipper in Black colour:

Each shipper will contain 20 millboard / grey board boxes in and labelled.

Description: RSC (Universal) type, 5-ply corrugated box made in narrow flute from (150)5 gsm, virgin quality 'A' grade Kraft paper.
